Press seems puzzled and confused at our rejection of his dictionary knowledge. The Press professes to belong to the Union party-the unconditional Union partyand we do not complain of it. A party, of any combination of letters in the alphabet. They don't deceive any one, uness he is simple enough to look into the dictionary and conclude that the party name suits the purposes of the men that

The self-styled Union party is not entitled to the name. They are against the Union unless it is made the tool to carry out their party purposes and keep them n the offices. The pioneers of the party always have been against it, when it ould not be used for their purposes. They may, however, call themselves what they please; but they need not run to the dictionary to find from the name what the party is. It is a party of Jacothat expects to hold the Union together by he sword, having no idea of any other ort of cement, and not allow any Union hat will not keep them in power. Such , and they expect a man to look inthe dictionary to find out the character f the party. As the editors of the Press are a little verdant, they make mistakes yet, that they will, perhaps, correct in time. They may, perhaps, think they belong to a Union party, because it calls itself so; and they may imagine that the Democratic party ought to acknowledge he unrestrained power of King Majority, ecause it is called the Democratic party. The history of the party shows what it is, act the dictionary. King Majority is bound by rules that majorities and minorities have acquiesced in, and he has no power at all outside of these rules. If ne expects to exercise any, he is a tyrant,

hose who oppose his pretension at recourse to any civil process. That is a brief and sayage paragraph, What crime is greater than to absorb the tive and dole out to the people in return nothing but promissory notes? We are glad to see the Times, Republican as it is, thus boldly coming forward and conemning such a course,

But the second charge is still bolder; the substitution of the arbitrary will of a ommander in defiance of the civil law. bly it is as well, as some ignorant persons might pretend to think that the men preparing for teaching will also re- this country. copy hereof. J. S. WILLIAMS, S. C. C. On the 15th day of August, 1865, I gave Dr. A. J. Allen notice of my intention to contest his right to a seat in the Senate of Kentucky, from the 29th Senatorial dis

The facts elicited proved to be of such a damning character, both as regards Dr. Allen himself and both as regards Dr. Allen himself and his associates in the infamous proceedings enacted on the 7th of August, 1865, that for the purpose of diverting public attention from his own participation in these outrages, and to screen his associates from the effect of the testimony in process of being taken, he has caused to be published "in the Lexington Unionist" what numeric to be income. nas caused to be putpinshed "in the Lexington Unionist" what purports to be a "counter-notice" served on me, which is a tissue of falsehoods, most of them known to be such to Dr. Allen himself.

The call made upon the military by him, and his co-workers in infamy, to aid him in his election, and the promptness with in his election, and the promptiess with which the required force was furnished, has no doubt caused him to hope that the military authorities will again come to his rescue, by some direct or indirect action upon my person. He need not delude himself with the belief that such a scheme will avail him. The contest will progress, proof will continue to be taken whether I am present or not, and the secret work-ings of a most villainous conspiracy against me and against the liberties of the people, will be laid bare to the world. I will establish by the most incontestable proof every allegation I have made in my notice, and will most clearly show Dr. Allen's guilty complicity in the whole institution. Dr. Allen once occupied a highly honorable position in the public estimation, but his association with his association with his association with his association with his association. Everything is going ahead here very rapidly, and Atlanta bids fair to be the largest city in Georgia, unless the negro population wins the country. My impression, however, is that foreign and population wins the country. My impression, however, is that foreign and Northern emigration will have to take the place of this negro population, and they are poor, worth-sickly regions, and finally exterminated.
